Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Saturday 10 Jul 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Sunny spells and showers inland, coast often cooler and cloudier.

Today:
Starting largely cloudy with a few residual overnight showers. Then sunny spells developing for western areas, but also further showers, these often heavy and slow moving and perhaps thundery. Staying cooler, cloudy and misty along some North Sea coasts. Maximum temperature 21 deg C (70 deg F).

Tonight:
Scattered heavy, slow moving and possibly thundery showers at first, these slowly and mostly fading away. Some clear spells develop, but along the coast low cloud may linger. Minimum temperature 12 deg C (54 deg F).

Sunday:
Bright or sunny spells and scattered showers, these slow moving with the light winds, and also heavy at times. Maximum temperature 22 deg C (72 deg F).

Outlook for Monday to Wednesday:
Monday and Tuesday sunny spells and showers, and possibly patchy coastal low cloud. Monday showers will often be heavy, and sometimes with hail and thunder. Wednesday mainly dry and fine.
